Course Welcome to

Introduction to Distributed Systems Architecture

Mark Madsen (apm@ansa.co.uk)

About this course

- *It is an introduction to distributed processing, distributed systems, and distributed computing*
- *... based on architectural concepts for building open distributed systems*
- *It explains the main issues, the problems and the extent of current solutions, and the terminology you'll need to grasp*

Course Timetable - Day 1

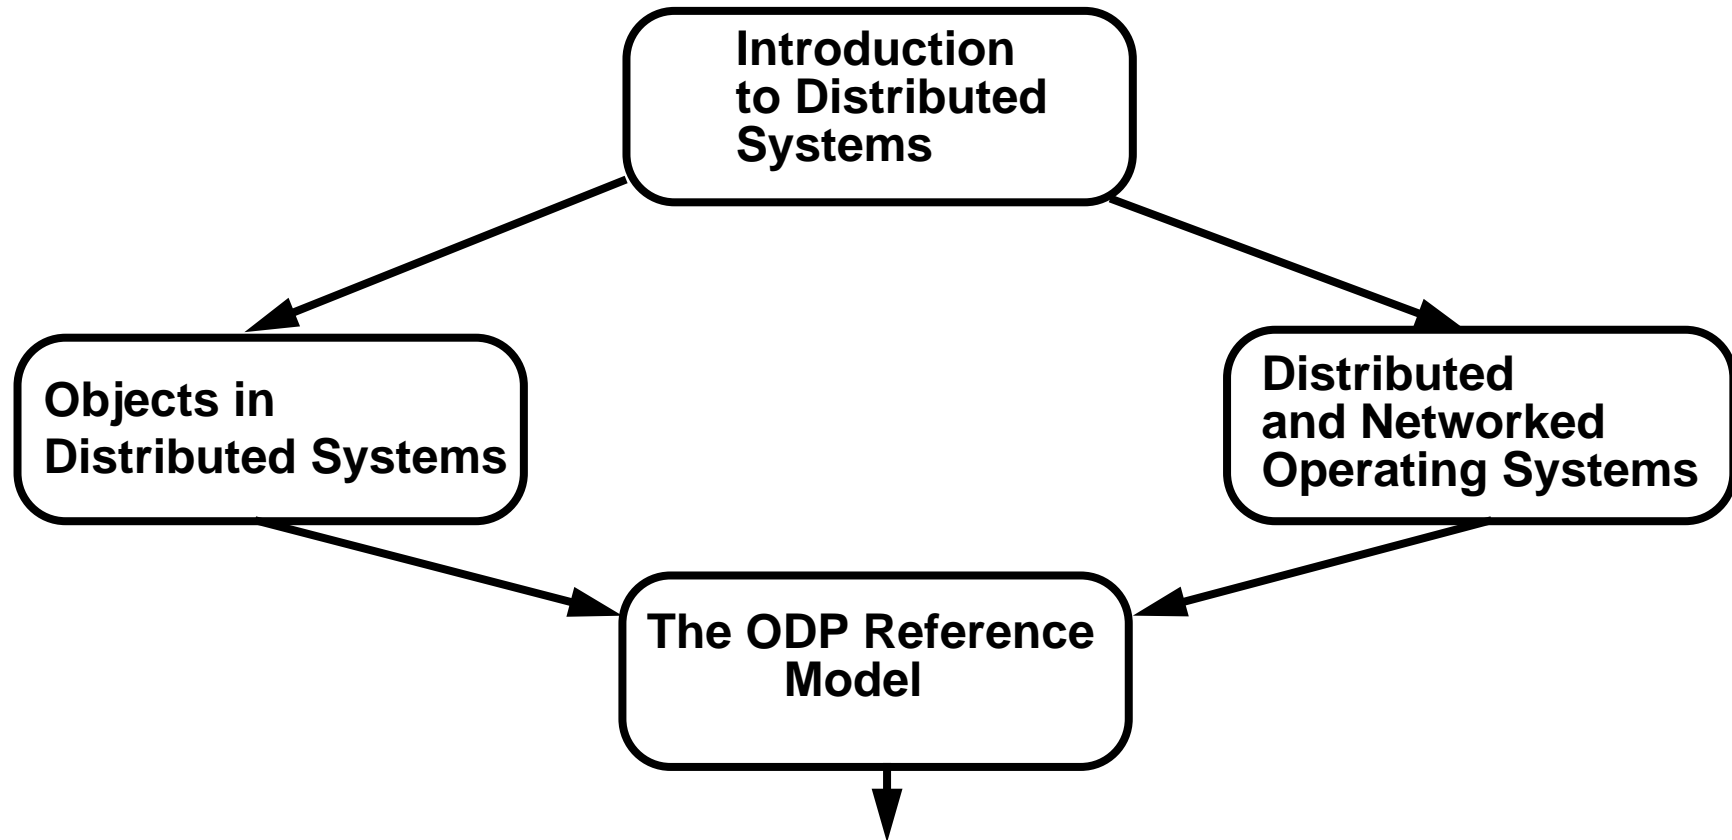

Module
<i>Welcome</i>
Introduction to Distributed Systems
Distributed and Networked Operating Systems
<i>Break</i>
Objects in Distributed Systems
<i>Lunch</i>
The ODP Reference Model
The ODP Enterprise Model
<i>Break</i>
The ODP Computational Model
<i>Close</i>

Course Timetable - Day 2

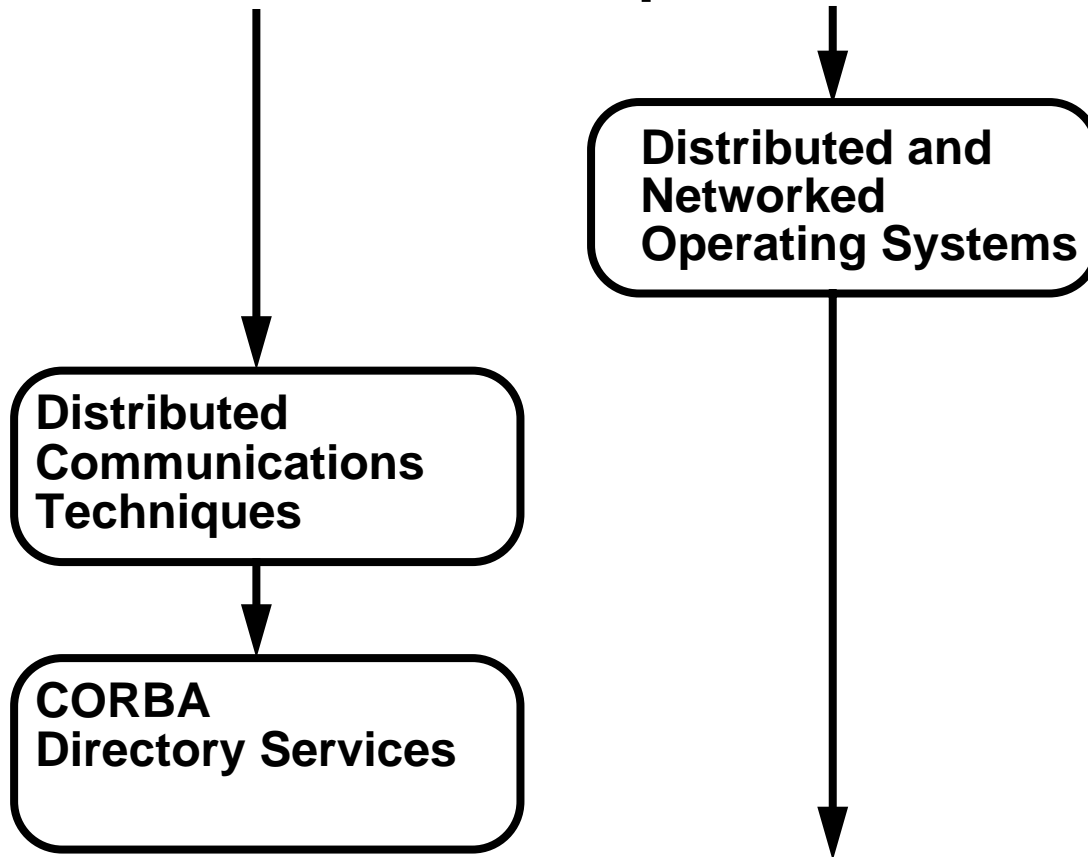

Module
<i>Review of Day 1</i>
Distributed Communications Techniques
Introduction to CORBA and the OMG
<i>Break</i>
CORBA Directory Services
<i>Lunch</i>
DCE Security Architecture
Distributed Client/Server in Action
<i>Break</i>
Course Roundup
<i>Close</i>

Course Roadmap - Concepts

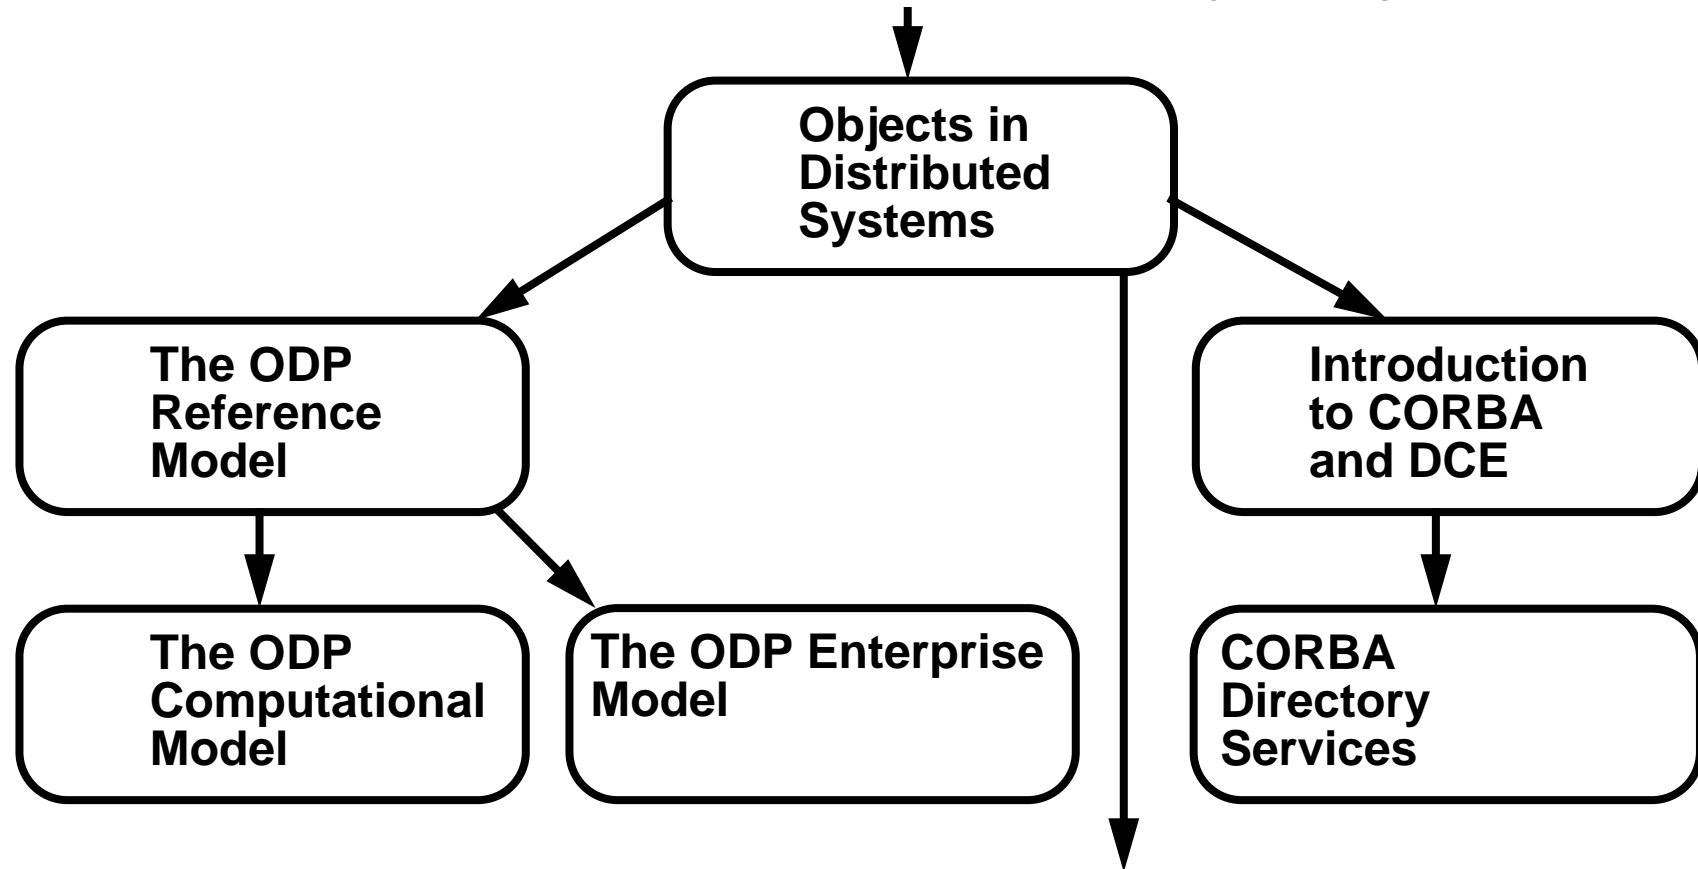

Course Roadmap - Distributed Infrastructure

Course Roadmap - Distributed Object Systems

Course Roadmap - Basic Services

**Naming
and
Trading**

**Security in
Distributed
Systems**

Enjoy the course!

- *... and ask questions whenever you wish*
